# FEWELL

RIDER'S EASY GUIDE & USER MANUAL

## 1 What is FEWELL?

**FEWELL** is a smart motorcycle companion app designed to help riders monitor fuel levels in real time, track trips using GPS, and automatically calculate total travel expenses.

> **Internet Requirement:** Make sure your smartphone has an active mobile data or Wi-Fi connection so the app can log into your account, record your trips, and save your ride history.

## 2 Quick Hardware & Bluetooth Pairing

### Device Connection

A small FEWELL monitoring unit is installed under your motorcycle's seat and wired directly to your fuel sensor and battery.

### Pairing with Your Phone

1. Turn your motorcycle's ignition key to the **ON** position.
2. Open your phone's **Settings > Bluetooth**.
3. Look for `FEWELL_ESP32` under available devices and tap to pair.
4. If asked for a PIN, enter `1234` or `0000`.

## 3 Logging into Your Account

Open the FEWELL app with mobile data turned on and select your preferred login option:

### Option A: Email Sign-In

1. Tap **Sign In / Register with Email**.
2. Type your email address and tap send.
3. Check your email inbox for a 6-digit verification code.
4. Enter the code into the app to log in.

### Option B: Google Sign-In

1. Tap **Continue with Google** on the login screen.
2. Select your Google account from the list.

## 4 Tracking Your Rides

### Starting a Trip

1. Turn on your phone's **Mobile Data** or **Wi-Fi**.
2. Turn on your motorcycle ignition and open the FEWELL app.
3. Check the status bar at the top—make sure it says **ESP32 Connected** with a green light.
4. Tap the green **Start Trip** button.
5. While riding, your screen will show your **Speed**, **Live Fuel Level (%)**, **Remaining Liters**, and **Distance Traveled**.

### Ending a Trip & Calculating Fuel Cost

1. When you reach your destination, tap **End Trip**.
2. A prompt will ask for today's gasoline price per liter (e.g., 65.00).
3. Tap **Confirm**. FEWELL will instantly compute your total trip cost and save the summary to your profile.

## 5 Easy Troubleshooting

If you run into any common issues, follow these simple solutions:

- **Google Sign-In Fails**
- **Email Code Didn't Arrive**
- **Fuel Level Gauge Jumps Around**
- **App Displays "Not Connected"**

| Problem | Easy Solution |
| --- | --- |
| Check that mobile data is turned on. If it still fails, use the **Email Sign-In** option instead. | |
| Check your **Spam** or **Junk Email** folder. Wait 1 minute and tap *Resend Code* if needed. | |
| Make sure the motorcycle key is turned all the way to **ON** and your phone stays within Bluetooth range. | |
| Check that Bluetooth is enabled on your phone and that mobile data or Wi-Fi is actively connected. | |
